INDUSTRY DEVELOPMENT AND BUSINESS REVIEW

In the first half of 2019, national clean and low-carbon energy transformation further proceeded, and the proportion of power generation from non-fossil energy continued to increase. As of the end of June 2019, national aggregate additional installed capacity of power generating units amounted to 40,740 MW, representing a year-on-year decrease of 11,940 MW, including 1,820 MW for hydropower, 16,930 MW for thermal power, 9,090 MW for wind power, 11,400 MW for photovoltaic power, and 1,250 MW for nuclear power. Installed capacity of non-fossil energy power generating units accounted for 58.4% of the increment. Among power generating units of 6 MW and above, installed capacity of non-fossil energy power generating units accounted for 37.2%, representing an increase of 1.2 percentage points as compared with the same period last year.

In the first half of 2019, the Group, by focusing on its development strategy and driven by reform and innovation, made every effort to promote high quality development. With the joint efforts of all staff members, we made positive progress in various tasks, and the economy operated steadily as expected by and large.

OPERATING RESULTS

For the six months ended 30 June 2019, the Group recorded an operating revenue of RMB9,962.01 million, representing a decrease of 21.76% as compared with the same period last year. The Group recorded a net profit attributable to owners of the parent company of RMB31.46 million, representing an increase of 2.24% as compared with the same period last year. Earnings per share were RMB0.02, remaining stable as compared with the same period last year. The Group's total equity attributable to the owners of the parent company at the end of the period was RMB14,978.40 million, representing a decrease of RMB47.88 million over the beginning of the year; and net assets per share were RMB8.78, representing a decrease of RMB0.03 over the beginning of the period.

NEW CONTRACTS

For the six months ended 30 June 2019, the value of new contracts secured by the Group amounted to RMB6.133 billion, representing a decrease of 29.10% from the same period last year, and to which the export contracts contributed RMB0.340 billion, representing an increase of 39.92% from the same period last year.

Among the contracts in the first half of the year, the new contract amount for thermal power amounted to RMB2.295 billion, accounting for 37.42% of the new contracts; the new contract amount for hydropower amounted to RMB0.913 billion, accounting for 14.89%; the new contract amount for nuclear power amounted to RMB0.009 billion, accounting for 0.15%; the new contract amount for gas power amounted to RMB0.714 billion, accounting for 11.64%; the new contract amount for power station service amounted to RMB0.898 billion, accounting for 14.64%; and the new contract amount for other products amounted to RMB1.304 billion, accounting for 21.26%.

PRODUCT OUTPUT

The capacity of the Group's power equipment produced during the six months ended 30 June 2019 was 5,940 MW, representing a decrease of 21.72% as compared with the same period last year, and among which water turbine generators generated a total of 230 MW, representing a decrease of 77.86% as compared with the same period last year; steam turbine generators generated a total of 5,710 MW, representing a decrease of 14.14% as compared with the same period last year; utility boilers for power stations generated a total of 6,920 MW, representing an increase of 7.45% as compared with the same period last year; and steam turbines for power stations generated a total of 4,830 MW, representing an increase of 53.24% as compared with the same period last year.

OPERATING REVENUE AND COST

For the six months ended 30 June 2019, the Group recorded an operating revenue of RMB9,962.01 million, representing a decrease of 21.76% as compared with the same period last year. In particular, operating revenue of main thermal power equipment was RMB4,425.47 million, representing a decrease of 29.16% as compared with the same period last year. Operating revenue of nuclear power equipment was RMB783.96 million, representing an increase of 36.35% as compared with the same period last year. Operating revenue of main hydropower equipment was RMB420.76 million, representing a decrease of 45.49% as compared with the same period last year. Operating revenue of engineering services for power stations was RMB2,834.25 million, representing a decrease of 25.66% as compared with the same period last year. Operating revenue of ancillary equipment and supporting products for power stations was RMB473.81 million, representing an increase of 78.67% as compared with the same period last year. Operating revenue of AC/DC motors and other products and services was RMB1,023.76 million, representing a decrease of 3.45% as compared with the same period last year. During the period, the decrease in the operating revenue of the Group was mainly attributable to a decrease in the production volume of power generation equipment and less revenue recognition from the newly contracted projects of power station engineering service segment in the early stage of construction.

During the period, the Group recorded an export turnover of RMB2,795.08 million, accounting for 28.06% of the operating revenue. The exports were mainly to Asia, accounting for 27.41% of the operating revenue and 97.68% of the export turnover.

During the period, the operating cost of the Group was RMB8,596.80 million, representing a decrease of 23.35% as compared with the same period last year, which was mainly attributable to the decrease in the scale of operating revenue.

GROSS PROFIT AND GROSS PROFIT MARGIN

For the six months ended 30 June 2019, the Group realized a gross profit from operating business of RMB1,365.21 million, representing a decrease of 9.92% as compared with the same period last year. The gross profit margin was 13.70%, representing an increase of 1.8 percentage points as compared with the same period last year.

In particular, the gross profit from main thermal power equipment was RMB824.58 million and the gross profit margin was 18.63%, representing an increase of 3.45 percentage points as compared with the same period last year; the gross profit from nuclear power equipment was RMB117.18 million and the gross profit margin was 14.95%, representing a decrease of 2.94 percentage points as compared with the same period last year; the gross profit from main hydropower equipment was RMB67.92 million and the gross profit margin was 16.14%, representing an increase of 5.79 percentage points as compared with the same period last year; the gross profit from engineering services for power stations was RMB59.27 million and the gross profit margin was 2.09%, representing an increase of 1.61 percentage points as compared with the same period last year; the gross profit from ancillary equipment and supporting products for power stations was RMB41.72 million and the gross profit margin was 8.81%, representing a decrease of 9.93 percentage points as compared with the same period last year; and the gross profit from AC/DC motors and other products and services was RMB254.53 million and the gross profit margin was 24.86%, representing a decrease of 4.97 percentage points as compared with the same period last year.

The Group's gross profit margin increased, due to (1) changes in the product sales structure of the thermal power segment, (2) the enhanced profitability of individual products in the hydropower segments, and (3) the increase in the gross profit margin of power station engineering service segment, affected by the fluctuations in exchange rates.

EXPENSES FOR THE PERIOD

For the six months ended 30 June 2019, the Group incurred expenses for the current period amounted to RMB1,061.70 million, representing a decrease of RMB136.45 million or 11.39% as compared with the same period last year. In particular, distribution expenses amounted to RMB228.09 million, representing a decrease of RMB9.27 million or 3.91% as compared with the same period last year; administrative expenses incurred amounted to RMB536.29 million, representing a decrease of RMB127.44 million or 19.20% as compared with the same period last year; R&D expenses incurred amounted to RMB266.21 million, representing an increase of RMB34.37 million or 14.82% as compared with the same period last year; financial costs incurred amounted to RMB31.11 million, representing a decrease of RMB34.11 million or 52.30% as compared with the same period last year.

The decrease in expenses for the period was mainly attributable to significant control effect in the non-production expense and a decrease in interest expense for the current period.

ASSETS AND LIABILITIES

As at 30 June 2019, the total assets of the Group amounted to RMB54,810.49 million, representing a decrease of RMB1,731.49 million or 3.06% over the beginning of the period, and among which the current assets were RMB45,805.64 million, accounting for 83.57% of the total assets, and the non-current assets were RMB9,004.85 million, accounting for 16.43% of the total assets. The total liabilities of the Group amounted to RMB38,528.59 million, representing a decrease of RMB1,704.36 million or 4.24% over the beginning of the period, and among which the current liabilities were RMB36,830.87 million, accounting for 95.59% of the total liabilities, and the non-current liabilities were RMB1,697.72 million, accounting for 4.41% of the total liabilities. As at 30 June 2019, the gearing ratio of the Group was 70.29% as compared to 71.16% at the beginning of the period.

CAPITAL AND GEARING RATIO

As at 30 June 2019, the gearing ratio of the Group (calculated as non-current liabilities over total shareholders' equity) was 0.11:1 as compared to 0.12:1 at the beginning of the period.

MONETARY CAPITAL AND CASH FLOWS

As at 30 June 2019, the monetary capital of the Group was RMB10,252.54 million, representing a decrease of RMB2,290.71 million or 18.26% as compared to the beginning of the period, primarily attributable to the decrease in contract liabilities. During the period, the negative net cash flow generated from operating activities of the Group was RMB4,063.89 million, while investing activities generated negative net cash flow of RMB145.77 million and financing activities generated net cash flow of RMB1,873.89 million.

FUNDING AND BORROWINGS

The Group currently has three funding sources for operation and development, namely shareholder's funds, trade receivables from customers and bank borrowings. The Group arranges borrowings for each specific project. Except for some special situations, loans will be raised individually by the Group's subsidiaries. However, prior approval from the parent company is required in respect of borrowings raised for capital investments. As at 30 June 2019, the Group's total borrowings amounted to RMB4,003.62 million, all of which were made by various commercial banks and the state's policy banks at interest rates stipulated by the state. Among the borrowings, the amount due within one year was RMB3,703.62 million, representing an increase of RMB1,930.71 million over the beginning of the period; the amount due after one year was RMB300.00 million, representing a decrease of RMB200.00 million over the beginning of the period, which was attributable to the reclassification of long-term borrowings to non-current liabilities due within one year. As of 30 June 2019, the Group's contracted liabilities were RMB13,086.88 million, representing a decrease of RMB1,509.84 million from that at the beginning of the period.

MAJOR INVESTMENTS HELD, MAJOR ACQUISITION OR DISPOSAL OF SUBSIDIARIES AND THE FUTURE PLAN ON MAJOR INVESTMENTS OR PURCHASE OF CAPITAL ASSETS

For the six months ended 30 June 2019, the Group had made fixed assets investments of RMB234.27 million, including RMB143.14 million for major projects and RMB91.13 million for other projects, which were mainly utilized for the manufacturing base improvement project for main nuclear pump motor units of Harbin Electric Power Equipment Company Limited. Such project was a technological transformation project designed for nuclear power products, which could satisfy the needs of the Group's nuclear power technology development, improve the core manufacturing capacity of nuclear power products and break through the bottleneck of manufacturing main equipment and key components of nuclear power conventional islands; at present, the project construction has been completed substantially.

There is no significant change in the 2019 fixed assets investment plan of the Group as compared to those disclosed in the 2018 annual report.

Save as disclosed above, the Group did not have any other major investment, significant acquisition or disposal of subsidiaries, or approve any other major investment or plan on acquisition of capital assets during the period.

EXPOSURE TO FLUCTUATIONS IN EXCHANGE RATES AND RELATED HEDGES

The export business and the businesses settled in foreign currencies and all deposits denominated in foreign currencies of the Group are exposed to exchange risk. As at 30 June 2019, the Group's deposits denominated in foreign currencies were equivalent to approximately RMB542.47 million. As at 30 June 2019, the Group did not enter into any new forward exchange contract.

TAX POLICIES

According to the provisions of Administrative Measures with regard to the Recognition of High and New Technology Enterprises (《高新技術企業認定管理辦法》) jointly issued by the Ministry of Science and Technology, the Ministry of Finance and the State Administration for Taxation of the PRC on 14 April 2008 and the Administrative Guidance with regard to the Recognition of High and New Technology Enterprises (《高新技術企業認定管理工作指引》) jointly issued by the Ministry of Science and Technology, the Ministry of Finance and the State Administration of Taxation on 8 July 2008, corporations including the Company and five of its subsidiaries, namely Harbin Electrical Machinery Company Limited, Harbin Boiler Company Limited, Harbin Turbine Company Limited, Harbin Electric Power Equipment Company Limited and HE Harbin Power Plant Valve Company Limited were entitled to a 15% preferential income tax rate.

In accordance with regulations of the State Administration of Taxation, the average rate for tax rebate applicable to the Group's new export products contracts is 13% with effect from 15 October 2003.

Pursuant to the Implementation Measures of the Provisional Regulations of the PRC on Value-added Tax (《中華人民共和國增值稅暫行條例實施細則》), the Group is included in the general framework of the value-added tax system reform, which allows the Group to deduct the value-added tax incurred for the purchase of equipment.

Under the Opinions of Central Committee of the Communist Party of China and the State Council on the Revitalization Strategies for Historical Industrial Bases of the Northeast Regions (《中共中央、國務院關於實施東北地區等老工業基地振興戰略的若干意見》), the Group will continue to enjoy the relevant favorable policies in supporting such revitalization for historical industrial bases of the northeast regions.

NEW PRODUCTS AND NEW INDUSTRIES

In the first half of 2019, the Group continued to increase its efforts in the development and research on key technologies for seawater desalination and water treatment, solar thermal power generation, biomass coupled power generation and medium and small gas turbines, and in tackling topics including the research and development on large Variable Speed Pumped Storage Units and new small air cooling units, and the upgrading and renovation of ultra-low energy consumption, and accelerated the research and development of new products such as Ultra-supercritical Two-stage Reheating Circulating Fluidized Bed Boiler, Ultra-supercritical W Flame Boiler, medium and small steam turbines, and therefore advanced the process of the development of new industries.

EMPLOYEES, REMUNERATION, STOCK OPTION PLAN AND TRAINING

As at 30 June 2019, the employees of the Group totaled at 13,658 and the total remuneration amounted to RMB627.95 million.

In the first half of 2019, there was no significant change in the Group's remuneration policy from those disclosed in the 2018 annual report. The Group has no long-term incentive scheme in place.

In the first half of 2019, the Group organized 539 classes in total for training and trained 17,176 persons.

INTERIM DIVIDEND

The Board does not recommend the payment of an interim dividend for the six months ended 30 June 2019.

PROSPECTS

In 2019, with increasingly intensified market competition and growing concern about the replacement of thermal power generation with clean and renewable power generation, power generation equipment manufacturers are operating in an environment with more and more challenges. In the second half of 2019, the Group will continue to take measures to develop markets, decrease the “account receivables and inventory”, reduce costs and expenses, and respond to tough market condition. The Group will accelerate transformation and upgrading, develop new pillar industry, cultivate new growth drivers, identify strategic partners and continue to promote industrial restructuring. The Group will further deepen reform, and drive and support corporate development, in order to repay Shareholders with more outstanding results.
